ENVIRONMENTAL DATASHEET

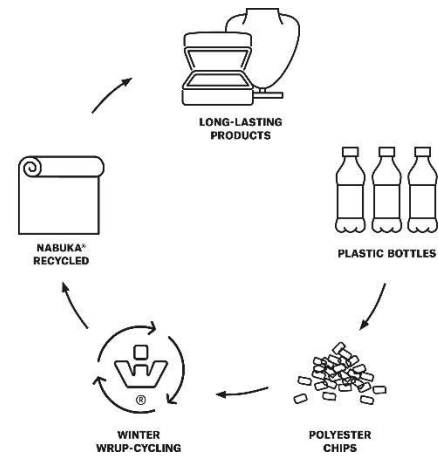

PRODUCT COMPOSITION

WINTER WRUP-CYCLING

WINTER WRUP-Cycling revives recycled materials into high-quality coverings.
The recycling of plastic wastes into a new long-lasting product is an enormous contribution to help to reduce energy and disposal of highly continuous waste to landfill and marine world.

For the production of NABUKA® RECYCLED, we collect and reuse plastic bottles into a high-quality nubuck imitation leather. This way, we create a new sustainable material adapted for long lasting and high-quality applications.

WASTE EQUIVALENT

The use of PET plastic bottles waste is an effective way to reduce the environmental impact.

The recycling process produces a new product, NABUKA® RECYCLED, true to the characteristics of fine imitation nubuck leather. At the same time we save a significant amount of waste that would otherwise have gone to landfill and sea.

POST-CONSUMER WASTE

In our modern society, we produce and consume large quantities of plastic bottles. This generates an enormous quantity of waste, which is also called post-consumer waste (PCW). The PET plastic bottles waste is used for the production of the upcycled product NABUKA® RECYCLED.

Through this process, we avoid the need of newly resourced polyester yarns and large quantities of plastic.

REACH

WINTER & COMPANY confirms that all our products comply with REACH. This product does not contain any of the substances currently listed as SVHC's (Substances of Very High Concern) under REACH.

UN GLOBAL COMPACT

The UN Global Compact is the world's largest corporate sustainability (a.k.a. corporate social responsibility) initiative with 13000 corporate participants and other stakeholders over 170 countries with two objectives: "Mainstream the ten principles in business activities around the world" and "Catalyse actions in support of broader UN goals, such as the Millenium Development Goals (MDGs) and Sustainable Development Goals (SDG's). Moving forward, the UN Global Compact and its signatories are deeply invested and enthusiastic about supporting work towards the SDGs.

VEGAN

Vegan means that this material does not contain any animal products or animal-derived ingredients.
